From international bestselling science fiction author **T.R. Harris** comes **BOOK #7** in his Epic saga of **Human Superiority** throughout the galaxy:

The Human Chronicles Saga - *The Apex Predator*.

Adam Cain ... The Alien with an Attitude is back!

In this alien universe, **Humans are the Supermen** - stronger, faster and more coordinated than nearly all the other aliens in the galaxy. It's this unique concept that has made **The Human Chronicles Saga** one of the most-popular science fiction series on the market today. Full of exotic adventure, alien worlds, fantastic space battles and a down-to-earth sense of humor, The Chronicles are a truly unique take on the subject of Human-Alien interaction.

In this edition ...

Having placed a bounty on the heads of the alien Klin and Kracori races, Humanity must now face the desperate wrath of mankind's worst enemies, who have once again joined forces for a pre-emptive strike against the Earth. Their plan is brilliant ... and only the special abilities of ex-Navy SEAL Adam Cain can save the planet.

It's a frantic race against time, as Adam and **Sherri Valentine** arrive on Earth just in time to help mount a ragtag defense against the Kracori fleet. But will it be enough?

Meanwhile, **Riyad Tarazi** is on his own, carrying out the dangerous assignment of verifying the location of the Kracori homeworld of Elision. Riyad soon discovers he's in the middle of a hornet's nest of deadly aliens, every bit the equal of the Human Supermen. Will he succeed, or will he become just another casualty of a galaxy growing ever more hostile to Mankind.

In addition, the evil Englishman **Nigel McCarthy** is up his old tricks as well, and his actions resurrect the sleeping giant of the Juireans. It's the last thing the Humans need is another deadly alien race devoted to their destruction.

As with all the books in **The Human Chronicles Saga**, this one is full of adventure, exotic locales, strange alien races ... and of course the humor that readers have come to expect in each new volume.

On the planet Earth, Mankind is **The Apex Predator**. In the Milky Way galaxy, we will assume the same role. After all, you can only poke the bear so long ... before he bites your head bit off!

The Human Chronicles Saga is a **MUST-READ** for all fans of pure science fiction. Pick up the entire series today ... and find out why this thrill-a-minute collection of space opera adventures has become one of the bestselling sci-fi series on Amazon over the past two years.
