Basic Analysis of Regularized Series and Products (Lecture Notes in Mathematics)

Jay Jorgenson, Serge Lang

Basic Analysis of Regularized Series and Products (Lecture Notes in Mathematics) Jay Jorgenson, Serge Lang

Analytic number theory and part of the spectral theory of operators (differential, pseudo-differential, elliptic, etc.) are being merged under a more general analytic theory of regularized products of certain sequences satisfying a few basic axioms. The most basic examples consist of the sequence of natural numbers, the sequence of zeros with positive imaginary part of the Riemann zeta function, and the sequence of eigenvalues, say of a positive Laplacian on a compact or certain cases of non-compact manifolds. The resulting theory is applicable to ergodic theory and dynamical systems; to the zeta and L-functions of number theory or representation theory and modular forms; to Selberg-like zeta functions; and to the theory of regularized determinants familiar in physics and other parts of mathematics. Aside from presenting a systematic account of widely scattered results, the theory also provides new results. One part of the theory deals with complex analytic properties, and another part deals with Fourier analysis. Typical examples are given. This LNM provides basic results which are and will be used in further papers, starting with a general formulation of Cramér's theorem and explicit formulas. The exposition is self-contained (except for far-reaching examples), requiring only standard knowledge of analysis.

From reader reviews:

Helen Johnson:

The ability that you get from Basic Analysis of Regularized Series and Products (Lecture Notes in Mathematics) could be the more deep you excavating the information that hide inside words the more you get interested in reading it. It does not mean that this book is hard to comprehend but Basic Analysis of Regularized Series and Products (Lecture Notes in Mathematics) giving you enjoyment feeling of reading. The article writer conveys their point in specific way that can be understood by means of anyone who read it because the author of this e-book is well-known enough. This particular book also makes your personal vocabulary increase well. That makes it easy to understand then can go with you, both in printed or e-book style are available. We recommend you for having this Basic Analysis of Regularized Series and Products (Lecture Notes in Mathematics) instantly.

Mary Buss:

Hey guys, do you wishes to finds a new book to learn? May be the book with the headline Basic Analysis of Regularized Series and Products (Lecture Notes in Mathematics) suitable to you? The actual book was written by well known writer in this era. Often the book untitled Basic Analysis of Regularized Series and Products (Lecture Notes in Mathematics)is the main of several books in which everyone read now. This specific book was inspired a number of people in the world. When you read this publication you will enter the new way of measuring that you ever know previous to. The author explained their thought in the simple way, and so all of people can easily to know the core of this reserve. This book will give you a large amount of information about this world now. To help you to see the represented of the world with this book.

Laura Clark:

The book Basic Analysis of Regularized Series and Products (Lecture Notes in Mathematics) will bring you to the new experience of reading a new book. The author style to explain the idea is very unique. Should you try to find new book to study, this book very acceptable to you. The book Basic Analysis of Regularized Series and Products (Lecture Notes in Mathematics) is much recommended to you to read. You can also get the e-book from official web site, so you can quickly to read the book.

Chad Wood:

A lot of people always spent their free time to vacation or maybe go to the outside with them household or their friend. Are you aware? Many a lot of people spent they free time just watching TV, or perhaps playing video games all day long. In order to try to find a new activity that's look different you can read some sort of book. It is really fun for you. If you enjoy the book that you simply read you can spent all day long to reading a book. The book Basic Analysis of Regularized Series and Products (Lecture Notes in Mathematics) it doesn't matter what good to read. There are a lot of folks that recommended this book. These people were enjoying reading this book. In case you did not have enough space bringing this book you can buy often the

e-book. You can m0ore quickly to read this book out of your smart phone. The price is not to fund but this book features high quality.

Download and Read Online Basic Analysis of Regularized Series and Products (Lecture Notes in Mathematics) Jay Jorgenson, Serge Lang #F4DK95VWCH2

Read Basic Analysis of Regularized Series and Products (Lecture Notes in Mathematics) by Jay Jorgenson, Serge Lang for online ebook

Basic Analysis of Regularized Series and Products (Lecture Notes in Mathematics) by Jay Jorgenson, Serge Lang Free PDF download, audio books, books to read, good books to read, cheap books, good books, online books, books online, book reviews epub, read books online, books to read online, online library, greatbooks to read, PDF best books to read, top books to read Basic Analysis of Regularized Series and Products (Lecture Notes in Mathematics) by Jay Jorgenson, Serge Lang books to read online.
