Essentials of Economics

Bradley Schiller

Essentials of Economics Bradley Schiller

Schiller's Essentials of Economics is the market leader for the one-semester survey course praised for its strong policy focus and core theme of seeking the best possible answers to the basic questions of WHAT HOW and FOR WHOM to produce. The 10th edition is benefitted by SmartBook the first adaptive reading experience designed to engage students with the content in an active and dynamic way as opposed to the passive and linear reading experience they are used to. As a result students are more likely to master and retain important concepts in the survey course. As in previous editions students are confronted early on with the reality that the economy doesn't always operate optimally either at the macro or micro level and are encouraged to examine the policy challenge of finding the appropriate mix of market reliance and government regulation that generates the best possible outcomes. In addition to the suite of resources available within Connect Economics over 100 key topics are reinforced with interesting and innovative videos on YouTube provided to help non-majors see the relevance of economics. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need when they need it and how they need it so that your class time is more engaging and effective.
