The Craft of the Cut project files will work with the latest version of Final Cut Pro X (10.1) but they need to be updated first:

Either copy the Craft of the Cut disk image file on the DVD to your hard disc and click on it to mount it or, if you are using an ebook version use the link provided in the front matter of the ebook to download the files and follow the instructions in the READ ME FIRST document.

Launch Final Cut Pro X. When FCPX opens it won't see the project and event folders that are on the disk image. These need to be updated first. You do this by going to:

File > Update Projects and Events and then clicking Update All on the dialog box that appears.

It will now show all the events and projects for Craft of the Cut as in previous versions of Final Cut Pro X, but using the new layout. This only needs to be done once. Next time you launch FCPX it will still be able to see the updated files.
