The Management of Transshipment Terminals: Decision Support for Terminal Operations in Finished Vehicle Supply Chains (Operations Research/Computer Science Interfaces Series) Dirk C. Mattfeld

A unique treatment of the transshipment operation and processes on the shipment of automobiles from the Bremerhaven harbor, Germany. The book is an analytical, theoretical, and practical work that incorporates Network Optimization, Logistics, Distribution, Transportation, and Supply Chain Management into a framework of Information Systems for a comprehensive understanding of the development of transshipment terminals in the global economy. More specifically, the book examines transshipment terminals and how they can be made more efficient.
