Radicalizing Levinas (SUNY series in Radical Social and Political Theory)

Levinas on politics, postcolonialism and globalization, animals and the environment, and science and technology.

Radicalizing Levinas initiates a third wave of Levinas scholarship. If the first wave was aimed at commentary and exposition, and the second focused on situating Levinas within the context of poststructuralism and deconstruction, the third wave is an explicit attempt to situate and explore his work in the context of current social and political problems. A short list of these are: war in the Middle East, colonialism, widespread famine, immeasurable animal suffering, environmental decay, school shootings, and increasing social and personal disorganization. How can a Levinasian ethics help us make sense of this? Levinas scholars respond and help move from theory to practice by addressing such topics as global justice, feminism, environmentalism, animal liberation, postcolonialism, radical democracy, technology and cybernetics, and psychotherapy. This book is for anyone seeking to understand better how philosophy can inform contemporary life.

“An impressive collection of essays from an outstanding group of authors.” — Howard Caygill, author of *Levinas and the Political*
