Birds & People Mark Cocker

The definitive groundbreaking book on the relationship between birds and humankind, with contributions from more than 600 bird enthusiasts from all over the world

Part natural history and part cultural study, this book describes and maps the entire spectrum of human engagements with birds, drawing in themes of history, literature, art, cuisine, language, lore, politics, and the environment. Vast in both scope and scale, it draws upon Mark Cocker's 40 years of observing and thinking about birds to celebrate this relationship. The book is as important for its visual riches as it is for its groundbreaking content, as one of Europe's best wildlife photographers has traveled in 39 countries on seven continents to produce a breathtaking and unique collection of photographs. The author solicited contributions from people worldwide, and personal anecdotes and stories have come from more than 600 individuals of 81 different nationalities, ranging from university academics to Mongolian eagle hunters, and from Amerindian shamans to highly celebrated writers. The sheer multitude of voices in this global chorus means that it is both a source book on why we cherish birds and a powerful testament to their importance for all humanity. Endorsed by the Royal Society for the Protection of Birds and Birdlife International.
