Plus

Joseph McElroy

Plus Joseph McElroy

One of McElroy's most endearing works: it is at once strange and familiar, as much of his other stuff, but its brevity makes it one of his most powerful and haunting novels. The prose is phenomenal--like *Imp Plus*, the narrator, it expands and grows as his bizarre mind-building experiences accumulate, turning into something more real (his voice carries him like a parent, and not the other way around) than poor Plus himself, who can only circle around the earth and never join it. His identity becomes his voice, assimilating each of his experiences and serving to sustain or remember them somehow by reporting on them. Communication here is a metaphor for being--our voice is our consciousness--and it is beautifully done.
