Distributed Computing and Monitoring Technologies for Older Patients (SpringerBriefs in Computer Science) Juris Klonovs, Mohammad A. Haque, Volker Krueger, Kamal Nasrollahi, Karen Andersen-Ranberg, Thomas B. Moeslund, Erika G. Spaich

This book summarizes various approaches for the automatic detection of health threats to older patients at home living alone. The text begins by briefly describing those who would most benefit from healthcare supervision. The book then summarizes possible scenarios for monitoring an older patient at home, deriving the common functional requirements for monitoring technology. Next, the work identifies the state of the art of technological monitoring approaches that are practically applicable to geriatric patients. A survey is presented on a range of such interdisciplinary fields as smart homes, telemonitoring, ambient intelligence, ambient assisted living, gerontechnology, and aging-in-place technology. The book discusses relevant experimental studies, highlighting the application of sensor fusion, signal processing and machine learning techniques. Finally, the text discusses future challenges, offering a number of suggestions for further research directions.

From reader reviews:

Myra Lopez:

Book is to be different for each and every grade. Book for children until eventually adult are different content. As you may know that book is very important usually. The book Distributed Computing and Monitoring Technologies for Older Patients (SpringerBriefs in Computer Science) had been making you to know about other knowledge and of course you can take more information. It is very advantages for you. The e-book Distributed Computing and Monitoring Technologies for Older Patients (SpringerBriefs in Computer Science) is not only giving you much more new information but also being your friend when you really feel bored. You can spend your own spend time to read your guide. Try to make relationship using the book Distributed Computing and Monitoring Technologies for Older Patients (SpringerBriefs in Computer Science). You never truly feel lose out for everything in the event you read some books.

Allison Stiffler:

Is it anyone who having spare time and then spend it whole day through watching television programs or just lying on the bed? Do you need something new? This Distributed Computing and Monitoring Technologies for Older Patients (SpringerBriefs in Computer Science) can be the response, oh how comes? It's a book you know. You are therefore out of date, spending your time by reading in this new era is common not a geek activity. So what these guides have than the others?

Matthew Hansen:

Do you like reading a book? Confuse to looking for your chosen book? Or your book has been rare? Why so many question for the book? But any people feel that they enjoy intended for reading. Some people likes looking at, not only science book but in addition novel and Distributed Computing and Monitoring Technologies for Older Patients (SpringerBriefs in Computer Science) or perhaps others sources were given understanding for you. After you know how the fantastic a book, you feel want to read more and more. Science e-book was created for teacher as well as students especially. Those textbooks are helping them to add their knowledge. In other case, beside science e-book, any other book likes Distributed Computing and Monitoring Technologies for Older Patients (SpringerBriefs in Computer Science) to make your spare time a lot more colorful. Many types of book like this.

Clark Palumbo:

A lot of book has printed but it is unique. You can get it by online on social media. You can choose the very best book for you, science, comedian, novel, or whatever by means of searching from it. It is known as of book Distributed Computing and Monitoring Technologies for Older Patients (SpringerBriefs in Computer Science). Contain your knowledge by it. Without leaving the printed book, it may add your knowledge and make an individual happier to read. It is most significant that, you must aware about reserve. It can bring you

from one location to other place.
