The Crap Husband's Guide To A Successful Marriage Mr Lindsay Joe Wesker

This book is a 10,000-word, stocking filler aimed at men, but will probably be bought by despairing women! The mantra of this book is “forewarned is forearmed”. In other words, no couple can have a proper conversation unless they are abreast of all the facts. In other words, you can’t bring the correct weapons into battle unless you know what kind of war you’re fighting! This book advocates total honesty – no matter how painful – because honesty is better than the consequences of lies and deceit, which can ultimately be far more painful, not to mention a terrible waste of time. This book is a deliberately-short, easy-to-digest, fun but shocking read that should provoke conversation between couples and, hopefully, foster a better relationship. Here are author Lindsay Wesker’s qualifications: “Well, I’m 54; I popped my cherry when I was 11, so I’ve been sexually active for more than 40 years! I’ve been in love with five women and had my heart broken five times. Most of my friends are women and, when they talk, I listen to them.” This is NOT a medical textbook. This wisdom is based on a catalogue of errors, and it will help crap partners become more effective, more supportive and more loving.
