This is the 2-book set--text and Solutions and Test Manual for Exploring Creation with Chemistry 3rd Edition. This course provides a rigorous foundation in chemistry in order to prepare your student for college-level studies. This is the 2 book set that includes the student text, Tests and Solutions Manual as well as an extra test packet.

We recommend that students taking this course be proficient at an algebra math level. Topics include significant figures, units, classification, the mole concept, stoichiometry, thermochemistry, thermodynamics, kinetics, acids and basics, redox reactions, solutions, atomic structure, Lewis structures, molecular geometry, gas laws, and equilibrium.

This revised edition offers more in-depth discussions and expanaltions of concepts, as well as biographical sketches of Christian scientists who have made a difference in the field while giving the glory to God. Experiments include measuring specific heat, discovering the electrical conductivity of compounds dissolved in water, measuring the width of a molecule, exploring freezing, point depression, using the ideal gas equation, recognizing the effects of catalysts, and much more.
