Receptor-Mediated Uptake in the Liver

Receptor-Mediated Uptake in the Liver

Cell surface receptors are multifunctional proteins with binding sites towards the external environment and effector sites which mediate intracellular events. The purpose of this symposium was to bring together investigators who have a common interest in those receptors which are located in the liver, and who have studied endocytic mechanisms for various macromolecules like insulin, lipoproteins, epidermal growth factor and others. Experiments in this particular field of research date back to the early 60-ies but have only recently led to new and important insight in the molecular basis of receptor mediated uptake in the liver. The structural features which control these mechanisms are currently under intense investigation in many laboratories. Though this symposium largely emphasizes lipoprotein uptake and catabolism by the liver, it was the particular intention of the organizers to discuss methodology and results with investigators who are also interested in hepatic uptake of macromolecules. This might then eventually lead to new and common concepts for both receptor-ligand interaction and internalization processes in the liver. Biochemists, pathologists and gastroenterologists met for two and a half days and discussed their latest data in this so rapidly developing field of basic research. This conference is part of a series on current topics in gastroenterology and hepatology arranged regularly by the Departments of Medicine and Surgery at the University Hospital Eppendorf. It is our hope, that such exchange of information between the different disciplines in medicine will continue. i. k.

From reader reviews:

Gerald Patton:

Do you have favorite book? In case you have, what is your favorite's book? Book is very important thing for us to learn everything in the world. Each guide has different aim as well as goal; it means that book has different type. Some people truly feel enjoy to spend their the perfect time to read a book. They can be reading whatever they take because their hobby is reading a book. What about the person who don't like reading a book? Sometime, person feel need book if they found difficult problem or exercise. Well, probably you will need this Receptor-Mediated Uptake in the Liver.

Kathryn Patterson:

Beside that Receptor-Mediated Uptake in the Liver in your phone, it might give you a way to get nearer to the new knowledge or info. The information and the knowledge you may got here is fresh from your oven so don't end up being worry if you feel like an aged people live in narrow commune. It is good thing to have Receptor-Mediated Uptake in the Liver because this book offers for your requirements readable information. Do you occasionally have book but you don't get what it's exactly about. Oh come on, that wil happen if you have this inside your hand. The Enjoyable option here cannot be questionable, like treasuring beautiful island. Use you still want to miss it? Find this book and read it from right now!

Michael Jones:

Don't be worry for anyone who is afraid that this book can filled the space in your house, you may have it in e-book technique, more simple and reachable. This Receptor-Mediated Uptake in the Liver can give you a lot of pals because by you checking out this one book you have issue that they don't and make you more like an interesting person. This book can be one of one step for you to get success. This book offer you information that maybe your friend doesn't understand, by knowing more than different make you to be great individuals. So , why hesitate? We need to have Receptor-Mediated Uptake in the Liver.

David Hosford:

Many people said that they feel weary when they reading a publication. They are directly felt the item when they get a half parts of the book. You can choose often the book Receptor-Mediated Uptake in the Liver to make your own personal reading is interesting. Your current skill of reading proficiency is developing when you including reading. Try to choose easy book to make you enjoy to read it and mingle the impression about book and reading especially. It is to be very first opinion for you to like to open up a book and go through it. Beside that the publication Receptor-Mediated Uptake in the Liver can to be your brand new friend when you're experience alone and confuse using what must you're doing of the time.
