How to Draw and Paint Vampires: A Complete Art Course Built Around This Legendary World (Barron's Educational Series) Ian Daniels

The huge popularity of vampires as subjects of novels, graphic novels, films, and other entertainment media has created a steady demand for convincing illustrations of vampires in gothic settings. This book shows both beginners and experienced commercial artists how to compose impressive, spine-chilling, professionally-finished vampire illustrations that also include renditions of the vampires' victims and companions. Author Ian Daniels offers inspiration by presenting spooky gothic illustrations in a wide range of styles, which he supplements with tips and tricks for adding those extra details that give each picture a powerful emotional impact. He also presents a directory of character types from the preternatural world that will inspire students and serve as starting points for their own original creations. The book is filled with atmospheric full-color illustrations and enlightening instructional sketches.
