The Twelve Spiritual Laws Of The Universe: A Pathway To Ascension Santi

To a greater or lesser extent, all of us question who we are, why we exist and why there is so much suffering in the world. These questions come from our pain as well as our inquisitive nature. Not only do we want to know how things work, but why things even exist. If we can learn to understand the laws that govern everything, then we have a greater opportunity to understand what is going on in the universe and our lives. Therefore, we owe it to ourselves to become familiar with and conscious of these laws as much as possible. Simplistic by design, they become intricate when we begin to examine them in detail. I believe that all the pain that each of us have experienced is because we were out of integrity with one or more of these laws. So the key to bringing peace into our lives is to study and implement a unity with these laws. All of us, by our very nature, need to resolve our many questions of "why?" Our inquisitive nature can be our liberator. These twelve laws represent much wisdom passed on to us from not only Vishnu but many other Master Forces and Teachers in Spirit. They are gifts of liberation.
