**"There are two things you need to know about time travel--first, it's impossible, and second...it's terrifying."**

**Paradigm Rift: A thrilling mix of mystery, history, and conspiracy.**

Denver Wayne Collins, Afghanistan War veteran, is struggling to maintain the deteriorating pieces of his fractured personal life. And then...it happens. During an electrical storm, he is violently thrown back to 1956...to the quiet town of Normal, Illinois. Is this nightmare real, or is this an elaborate governmental fabrication?

Denver discovers a fragile alliance of time jumpers from across the last six decades. The group has been desperately seeking the technology to return each of them back to their proper places in the space-time continuum. But will they succeed before the relentless forces of the CIA and a female KGB assassin find them? Who can they trust? Can they trust each other?

From Roswell in 1947, to Area 51 and far beyond, the Back to Normal series will challenge the way you understand contemporary world history...and even time itself. If you are fascinated by conspiracy theories, then the Back to Normal series is your newest escape. Back to Normal will tease your mind with shocking conclusions about the famous Roswell event, Area 51, the Philadelphia Experiment, and even...the Kennedy assassination.

You will never look at history the same way again...it's time to get challenged, it's time to get the whole story, it's time to get Paradigm Rift: Book One of the Back to Normal series.
