# View-based 3-D Object Retrieval (Computer Science Reviews and Trends)

Yue Gao, Qionghai Dai

**View-based 3-D Object Retrieval (Computer Science Reviews and Trends)** Yue Gao, Qionghai Dai

Content-based 3-D object retrieval has attracted extensive attention recently and has applications in a variety of fields, such as, computer-aided design, tele-medicine, mobile multimedia, virtual reality, and entertainment. The development of efficient and effective content-based 3-D object retrieval techniques has enabled the use of fast 3-D reconstruction and model design. Recent technical progress, such as the development of camera technologies, has made it possible to capture the views of 3-D objects. As a result, view-based 3-D object retrieval has become an essential but challenging research topic.

*View-based 3-D Object Retrieval* introduces and discusses the fundamental challenges in view-based 3-D object retrieval, proposes a collection of selected state-of-the-art methods for accomplishing this task developed by the authors, and summarizes recent achievements in view-based 3-D object retrieval. Part I presents an Introduction to View-based 3-D Object Retrieval, Part II discusses View Extraction, Selection, and Representation, Part III provides a deep dive into View-Based 3-D Object Comparison, and Part IV looks at future research and developments including Big Data application and geographical location-based applications.

- Systematically introduces view-based 3-D object retrieval, including problem definitions and settings, methodologies, and benchmark testing beds
- Discusses several key challenges in view-based 3-D object retrieval, and introduces the state-of-the-art solutions
- Presents the progression from general image retrieval techniques to view-based 3-D object retrieval
- Introduces future research efforts in the areas of Big Data, feature extraction, and geographical location-based applications

### **From reader reviews:**

#### **Andrew Waite:**

Have you spare time to get a day? What do you do when you have far more or little spare time? Yes, you can choose the suitable activity to get spend your time. Any person spent their spare time to take a go walking, shopping, or went to the particular Mall. How about open or perhaps read a book allowed View-based 3-D Object Retrieval (Computer Science Reviews and Trends)? Maybe it is to become best activity for you. You know beside you can spend your time together with your favorite's book, you can cleverer than before. Do you agree with it is opinion or you have some other opinion?

#### **Celia Redmond:**

Reading can called thoughts hangout, why? Because when you are reading a book particularly book entitled View-based 3-D Object Retrieval (Computer Science Reviews and Trends) your brain will drift away trough every dimension, wandering in most aspect that maybe unknown for but surely can be your mind friends. Imaging every word written in a reserve then become one type conclusion and explanation that will maybe you never get prior to. The View-based 3-D Object Retrieval (Computer Science Reviews and Trends) giving you another experience more than blown away your brain but also giving you useful details for your better life in this era. So now let us present to you the relaxing pattern here is your body and mind will probably be pleased when you are finished reading through it, like winning a casino game. Do you want to try this extraordinary paying spare time activity?

#### **Robert Jenkins:**

Do you like reading a reserve? Confuse to looking for your favorite book? Or your book was rare? Why so many query for the book? But almost any people feel that they enjoy regarding reading. Some people likes examining, not only science book but in addition novel and View-based 3-D Object Retrieval (Computer Science Reviews and Trends) or others sources were given knowledge for you. After you know how the fantastic a book, you feel want to read more and more. Science publication was created for teacher or students especially. Those ebooks are helping them to put their knowledge. In different case, beside science e-book, any other book likes View-based 3-D Object Retrieval (Computer Science Reviews and Trends) to make your spare time considerably more colorful. Many types of book like here.

#### **Filiberto Dacosta:**

A lot of people said that they feel uninterested when they reading a publication. They are directly felt the item when they get a half elements of the book. You can choose often the book View-based 3-D Object Retrieval (Computer Science Reviews and Trends) to make your current reading is interesting. Your own skill of reading expertise is developing when you like reading. Try to choose easy book to make you enjoy to learn it and mingle the sensation about book and examining especially. It is to be 1st opinion for you to like to start a book and examine it. Beside that the e-book View-based 3-D Object Retrieval (Computer Science

Reviews and Trends) can to be your brand-new friend when you're experience alone and confuse with the information must you're doing of that time.
