Economic Forecasting

Graham Elliott, Allan Timmermann

Economic Forecasting Graham Elliott, Allan Timmermann

Economic forecasting involves choosing simple yet robust models to best approximate highly complex and evolving data-generating processes. This poses unique challenges for researchers in a host of practical forecasting situations, from forecasting budget deficits and assessing financial risk to predicting inflation and stock market returns. *Economic Forecasting* presents a comprehensive, unified approach to assessing the costs and benefits of different methods currently available to forecasters.

This text approaches forecasting problems from the perspective of decision theory and estimation, and demonstrates the profound implications of this approach for how we understand variable selection, estimation, and combination methods for forecasting models, and how we evaluate the resulting forecasts. Both Bayesian and non-Bayesian methods are covered in depth, as are a range of cutting-edge techniques for producing point, interval, and density forecasts. The book features detailed presentations and empirical examples of a range of forecasting methods and shows how to generate forecasts in the presence of large-dimensional sets of predictor variables. The authors pay special attention to how estimation error, model uncertainty, and model instability affect forecasting performance.

- Presents a comprehensive and integrated approach to assessing the strengths and weaknesses of different forecasting methods
- Approaches forecasting from a decision theoretic and estimation perspective
- Covers Bayesian modeling, including methods for generating density forecasts
- Discusses model selection methods as well as forecast combinations
- Covers a large range of nonlinear prediction models, including regime switching models, threshold autoregressions, and models with time-varying volatility
- Features numerous empirical examples
- Examines the latest advances in forecast evaluation
- Essential for practitioners and students alike

From reader reviews:

William Lyons:

Reading a guide tends to be new life style with this era globalization. With examining you can get a lot of information that can give you benefit in your life. With book everyone in this world can share their idea. Ebooks can also inspire a lot of people. A lot of author can inspire all their reader with their story or perhaps their experience. Not only the storyline that share in the publications. But also they write about the information about something that you need illustration. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book that you can get now. The authors on earth always try to improve their proficiency in writing, they also doing some study before they write for their book. One of them is this Economic Forecasting.

Bertha Davis:

This Economic Forecasting is great publication for you because the content which is full of information for you who also always deal with world and get to make decision every minute. This kind of book reveal it details accurately using great organize word or we can claim no rambling sentences inside it. So if you are read the idea hurriedly you can have whole data in it. Doesn't mean it only will give you straight forward sentences but challenging core information with splendid delivering sentences. Having Economic Forecasting in your hand like getting the world in your arm, facts in it is not ridiculous one. We can say that no reserve that offer you world in ten or fifteen minute right but this book already do that. So , this is certainly good reading book. Heya Mr. and Mrs. hectic do you still doubt this?

Robert Dunham:

As we know that book is significant thing to add our expertise for everything. By a e-book we can know everything we wish. A book is a range of written, printed, illustrated or blank sheet. Every year ended up being exactly added. This publication Economic Forecasting was filled concerning science. Spend your free time to add your knowledge about your scientific disciplines competence. Some people has various feel when they reading a book. If you know how big advantage of a book, you can sense enjoy to read a book. In the modern era like currently, many ways to get book which you wanted.

Lorretta Cox:

As a college student exactly feel bored in order to reading. If their teacher requested them to go to the library or make summary for some guide, they are complained. Just minor students that has reading's spirit or real their pastime. They just do what the teacher want, like asked to go to the library. They go to there but nothing reading significantly. Any students feel that reading through is not important, boring and can't see colorful pics on there. Yeah, it is to be complicated. Book is very important in your case. As we know that on this period, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore this Economic Forecasting can make you experience more interested to read.
